

## **GAINVEST: THE BUILDING MATERIAL EXPERTS**

Gainvest's principal activities lie in trading Building and Industrial materials. The company holds distributorships for a number of building materials with a vast sales network throughout Malaysia.

The company is empowered by an experienced group of experts, managers and executioners - specialised in technical projects, construction & contract management services in the construction industry.

This presents Gainvest with an expert edge in residential & commercial building construction, civil engineering works, infrastructure construction and unique contracting works. Ultimately allowing this Malaysian set-up to successfully take on myriad of roles like project management, construction management and contract management services; including planning, directing, communicating, controlling, coordinating and implementing a construction.

With various companies initiated within the group, Gainvest have been assessed and certified compliant with the requirements of ISO 9001:2008 BS EN ISO 9001:2008, OHSAS 18001:2007 and ISO 14001:2004 BS EN ISO 14001:2004 by Moody International Certification (Malaysia) Sdn. Bhd.

Gainvest aspires to be the trusted and preferred one-stop partner by industry leaders. Hence, there's a tireless pursue for new construction methods, technology, building materials, green technology, coupled with value engineering to reduce cost and time.

Gainvest Corporation operates on a proven managerial hierarchy that ensures the company delivers consistently and seamlessly. Each and every shareholder and employee's role are designated based on visible demonstration of dedication, experience and efficiency.
